**Re: Immediate Report**

The Company is honored to update that in recent weeks, Accessibility for All Ltd., a subsidiary (51%) of the Company, has entered into agreements to provide services through the "Accessible Docs" (**the System**)<sup>1</sup> with several large entities, including local authorities, including the largest municipality in Israel, banks, and financial corporations, etc.

These agreements express an annual revenue potential of over 500,000 ₪.

According to the Company's estimate, these agreements constitute a stamp of approval for the system's abilities, which meet the most stringent accessibility requirements in an efficient, accurate, and fast manner, as well as the development capabilities of the Company. The Company further estimates that these agreements may assist the subsidiary in positioning itself in the market and increase its customer base and its ability to enter into agreements with additional entities.

As of the date of this immediate report, the subsidiary has submitted bids for additional contracts to provide services through the system published by public entities and local authorities, and continues to enter into agreements with private entities.

It should be noted that the system is just one of a large variety of products and services that the Company provides to all its clients in Israel and around the world, utilizing advanced technologies and adapting its products to global market requirements.

**The above information, regarding the Company's estimates regarding revenues from the aforementioned agreements, the business potential in the system, winning additional contracts, and the ability to sell the system to its clients, is forward-looking information, as defined by this term in the Securities Law, 1968. The above estimates are based on the information available to the Company and the subsidiary as of this date and may not materialize or may materialize in part or differently than described above as a result of factors beyond the control of the Company and/or the subsidiary, including, among other things, changes in the business environment of the activity, and so on.**

**Sincerely,**  
**Group 107 Ltd.**
